Introduction

1. The Commission of the European Communities, in its reply to the note by the Secretary-General of UNCTAD of October 1973, has provided detailed statistical information on imports by the EEC in 1988 and 1989, classified by beneficiary and by product. This information is summarized below and shown in detail in tables 1 and 2 of the annexes to this note. The information contained in table 1 relates to the value of total imports and of which dutiable from the world - of which GSP beneficiary, GSP dutiable, GSP covered and preferential imports from each effective beneficiary, as well as nominal beneficiaries - of products falling within HS chapters 1 to 24, 25 to 97 and 1 to 97. In addition, details on imports (covered and preferential) are given regarding each beneficiary according to the category of products specified in the EEC scheme for 1988 and 1989. 1/ The information shown in table 2 gives the value of products covered by the scheme imported from the world, of total imports from all beneficiaries and preferential imports from effective beneficiaries, as well as from the five major beneficiary suppliers of the covered products. 2/

EEC imports from effective beneficiary suppliers in 1988 and 1989

2. The beneficiaries listed in the scheme include countries which already benefit from special preferences under special arrangements or bilateral agreements with the EEC. The former covers African, Caribbean and Pacific countries (ACP), for which trade is governed by the Lomé Convention. The latter covers the Mediterranean countries 3/ and Yugoslavia. All these countries are considered as nominal beneficiaries while effective beneficiaries include all Latin American countries and most Asian countries and Romania. Furthermore, all territories, dependent or administered by any member State of the EEC, are also recognized as nominal beneficiaries. In the following analysis, only imports from effective beneficiaries are taken into account.

3. Total EEC imports from effective beneficiaries in 1988, as shown in table 1A of annex I, and in 1989, in table 1A of annex II, amounted to $100.3 billion and $111.4 billion, respectively. 4/ Dutiable imports amounted to $62.5 billion or 62.3 per cent of the value of total imports in 1988 and $67.4 billion or 60.5 per cent in 1989. Of these dutiable imports, 68.6 per cent ($42.9 billion) were covered by the scheme in 1988 and 62.5 per cent ($42.1 billion) were covered by the scheme in 1989. The bulk of these covered products ($35.9 billion or 83.7 per cent) in 1988 (and $34.9 billion or 82.9 per cent) in 1989 consisted of industrial products falling with the Harmonized Commodity Description and Coding System (HS) chapters 25 to 97. Agricultural products in HS chapters 1 to 24 accounted for the remaining $7 billion and $7.2 billion, respectively in 1988 and 1989. Those imports in 1988 which actually received preferential treatment amounted to $18.2 billion of which $13.5 billion or 74.1 per cent were industrial products and $4.7 billion agricultural products. In 1989, imports which

actually received preferential treatment amounted to $20.9 billion of which $16.4 billion or 78.5 per cent were industrial products and $4.6 billion agricultural products. The overall rate of utilization of the scheme, as measured by the ratio of imports which actually received preferential treatment to imports covered by the scheme, was 42.5 per cent in 1988 and 49.7 per cent in 1989. The utilization rates in 1989 for agricultural and industrial products, respectively, amounted to 67.6 per cent and 37.6 per cent.

4. Fourteen effective major beneficiaries accounted for $35 billion or 81.7 per cent and $35.6 billion or 84.6 per cent of all imports covered by the scheme in 1988 and 1989, respectively, while those imports which actually received preferences amounted to $14.4 billion and $16.5 billion, or 79 per cent in both cases, for the two respective years. In 1989, by order of importance, the major suppliers were: China, Brazil, Singapore, Hong Kong, India, Thailand, Malaysia, Indonesia, Romania, Mexico, Philippines, Pakistan, Saudi Arabia and Colombia. In contrast with 1988, Mexico and Colombia were the new major suppliers in 1989, while Kuwait and Libyan Arab Jamahiriya ceased to be counted as major suppliers.

5. Total imports from 10 effective beneficiaries among the least developing countries (LDCs) 5/ attained a value of $1,053 million in 1988 and $1,409 million in 1989 while dutiable imports amounted to $626 million and $676 million for the two respective years. Covered EEC imports attained a value of $541 million in 1988, of which $325 million or 60.1 per cent received preferential treatment. In 1989, covered imports amounted to $592 million, of which $349 million or 58.9 per cent received preferential treatment. Bangladesh ($387 million), Nepal ($86 million), Haiti ($44 million) and Afghanistan ($33 million) accounted for 92.9 per cent of total covered imports from the group of LDCs effective beneficiaries in 1989.

6. Total imports into the EEC in 1989 from ACP, Mediterranean countries (MED) and Yugoslavia, which enjoy special tariff preferences in the EEC market amounted to $21.3 billion, $20.1 billion and $7.7 billion. Of these total imports, dutiable imports amounted to $9.1 billion or 42.7 per cent for ACP countries, $11.7 billion or 58.3 per cent for MED countries and $7 billion or 90.8 per cent for Yugoslavia. EEC covered imports amounted to $3.7 billion (ACP), $3 billion (MED) and $2.7 billion (Yugoslavia), respectively, which altogether represented 18.3 per cent of total covered imports from all beneficiaries (effective and nominal).

7. As may be seen from table 1B of annex I, the EEC had registered imports from 54 effective beneficiaries, which all actually received GSP treatment in 1988.

8. Likewise, as may be seen from table 1B of annex II, the EEC registered imports from 56 effective beneficiaries which all received GSP treatment in 1989. However, during the two years under consideration, the Republic of Korea, while appearing in the tables, has been suspended from preferential imports under the EEC scheme since 1 January 1988. 6/

Imports of products covered by the scheme in 1989 and their five major suppliers

9. Table 2 of annex II shows the value of EEC imports in 1989 of products covered by the scheme according to the specific categories. 7/ Imports of products are given from all sources, from all beneficiaries (nominal and effective) and from the first individual major beneficiary suppliers as well as the value of imports of these products which effectively received preferential treatment in the case of effective beneficiaries only.

10. Imports from beneficiaries of agricultural major products covered by the scheme in 1989 were recorded under 25 products and/or product groups (order number) as defined within the scheme. These imports amounted to $8.5 billion or 82.3 per cent of agricultural imports covered by the scheme.

11. Some 17 major agricultural products, valued at $100 million or more, accounted for 92.1 per cent of the 25 major products in 1989. The most important products 8/ were: (52.1310) coffee not roasted ($4,323); (52.0350) other shrimps and prawns ($663); (50.0040) flue-cured Virginia type tobacco ($497); (52.3730) flours ... of fish, crustaceans ... ($364); (52.1780) other palm oils ($287); (52.1860) other crude oil ($194); (52.2460) crustaceans... prepared ($183); (52.0960) pistachios ($165); (50.0050) other unmanufactured tobacco ($158); (52.2540) cocoa butter ($158); (50.0030) extracts of coffee ($133); (52.0560) octopus ($125); (50.0015) preserved pineapples in slices ($117); (52.1840) coconut crude oil ($113); (52.1380) pepper neither crushed nor ground ($110); (52.0530) squid ($104); (52.0520) cuttlefish ($103).

12. Imports from beneficiaries of major industrial products other than textiles covered by the scheme in 1989 were recorded under 129 industrial products and/or product groups (order number or HS at the 4-digit level, as defined within the scheme) and 37 product groups of textile products. Imports of major products falling within these two categories (HS chapters 25 to 97) amounted to $34.2 million or 83.5 per cent of all industrial products covered by the scheme.

13. Some 28 major industrial products, for which imports were valued at $300 million or more, accounted for 54 per cent of covered imports of the 166 major products in 1989.

14. The most important products were: (10.0030) gas oils ... ($2,789); (10.1010) automatic data-processing ... ($1,387); (10.1060) reception

apparatus, television ... ($1,341); (10.1110) cathode, diode ... ($1,132); (40.0580) carpets ($869); (10.1300) other toys ($854); (10.0010) light oils ($834); (10.0570) trunks, suit-cases ... ($639); (E.25950) articles of jewellery of other precious metal ($615); (40.0020) woven fabrics of cotton ($545); (10.0630) plywood, wood marquetry ($522); (E.41350) parts and accessories of the machines of headings HS 84.69, 84.70 and 84.71 ($522); (10.0520) leather of bovine or equine animals ($483); (40.0080) men's or boy's shirts ... ($474); (40.0050) jerseys, pullovers ... ($460); (10.1055) television receivers ($439); (40.0040) shirts, T-shirts ... ($437); (10.0670) footwear with outer soles of rubber, plastic, leather ... ($436); (HS 2711) petroleum gases ... ($425); (40.0060) men's or boys' woven breeches ($422); (E.43950) electrical resistors ... ($401); (HS 87.08) bumpers and parts thereof ($384); (10.0580) articles of apparel and clothing accessories of leather ($378); (10.1120) motor vehicles (not exceeding 3,000 cm^3) ($353); (HS 84.07) spark-ignition reciprocating or rotary internal combustion piston engines ($341); (HS 8411) turbo-jets ... ($326); (40.0070) women's or girls' blouses ... ($323); (E.21300) parts of footwear ... ($315).

Notes

1/ See the EC Official Journal, L 350, Vol. 30 of 12 December 1987 and L 375, Vol. 31 of 31 December 1988.

2/ For information on preferential imports for preceding years, see TD/B/C.5/30/Add.2, 4 and 12 and TD/B/C.5/Pref/30 and 43.

3/ Algeria, Cyprus, Egypt, Jordan, Lebanon, Malta, Morocco, Syrian Arab Republic and Tunisia.

4/ Which represented 20.4 per cent in 1988 and 21.6 per cent in 1989, respectively, of total EEC imports from all sources other than intra-EEC Trade.

5/ Afghanistan, Bangladesh, Bhutan, Myanmar, Laos, Maldives, Nepal, Yemen, and Haiti. The latter beneficiary joined ACP countries in 1990 and is therefore considered as a nominal beneficiary. The Yemen Arab Republic and the People's Democratic Republic of Yemen were united in 1990 and form one single beneficiary country.

6/ See UNCTAD document TD/B/C.5/111/Add.1, page 6, footnote 11.

7/ For result of 1988, see table 2 of Annex I.

8/ Each major product is defined by:

(i) its order number (as it appears under the EEC scheme) given in brackets, followed by a brief description of the product and the value of imports covered expressed in millions of United States dollars, or

(ii) Nomenclature of Generalized System of Preferences (NGSP) between brackets. In this case see full concordance between this letter nomenclature and the combined nomenclature (NC) in table 3, or

(iii) HS position or ex-position at four digit-level between brackets.

Explanatory notes

How to read tables 1 and 2 of Annexes I and II

Table 1B

Information is given by country on total imports (dutiable and non-dutiable) at the level of aggregate imports (agricultural products falling within HS chapters 1 to 24 and industrial products within HS chapters 25 to 97. A breakdown according to categories as defined in the 1988 and 1989 EEC schemes is given for covered and received imports. These categories are contained in the Official Journal of the EC for:

1988: L 350, Volume 30, 12 December 1987

1989: L 375, Volume 31, 31 December 1988

The categories are the following:

1. Industrial products other than textiles and ECSC steel products: EEC Regulation No. 3635/87 (1988) and No. 4257/88 (1989)

   (a) Category 11: Sensitive petroleum products

   (b) Category 12: Other sensitive industrial products

   (c) Category 21: Other petroleum products

   (d) Category 22: Non-sensitive industrial products

2. Textiles: EEC Regulation No. 3782/87 (1988) and No. 4259/88 (1989)

   (a) Category 40: MFA textiles

   (b) Category 42: Non-MFA textiles

   (c) Category 47: Jute and coir products

3. Agricultural products: EEC Regulation No. 3636/87 (1988) and No. 4258/88 (1989)

   (a) Category 50: Sensitive agricultural products

   (b) Category 52: Other agricultural products

4. ECSC iron and steel products: Decision 87/564/ECSC (1988) and Decision 88/654/ECSC (1989)

(a) Category 60: Sensitive ECSC iron and steel products

(b) Category 62: Non-sensitive ECSC iron and steel products

Table 2

Information is given under each category listed above according to product groups as defined in the scheme under each code number.

However under category 31 and a large part of category 32 (other petroleum products and non-sensitive industrial products), the products are defined at the HS position at the 4-digit level (for an accurate definition of these products, readers could consult the table of concordance of these products in the UNCTAD Secretariat GSP section).

In addition, under category 32 of table 2, about 150 products are defined at the level of the Nomenclature of the Generalized System of Preferences (NGSP). Concordance between the NGSP and the Combined Nomenclature (NC) is shown in table 3.

Definitions of products at the NC level for 1988 are provided in the Official Journal of the EC 1256, volume 30, 7 September 1987 and for 1989, L 298, volume 31, 31 October 1988. In this connection, it should be recalled that the first six digits of the NC are those of the Harmonized System (HS); hence for a broader definition reference may therefore be made to the Harmonized System.

The headings of table 2 should be understood as follows:

(a) World: Imports from all sources less intra-EEC-trade

(b) Covered: Imports from all beneficiaries (nominal and effective). (By nature all these imports are covered since information is given at the level of the heading covered.)

(c) Received: Imports which received preferences from effective beneficiaries only.

(d) Numerals 1 to 5 The first five major suppliers (effective and nominal). When the major supplier is a nominal beneficiary, obviously, received preferential imports are not given.

(e) The full name of the major beneficiaries is given under table 3B.
